TARIFF FORMAT

- A. Page Numbering - page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between page 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the S.C.P.S.C. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14. Consult the check page for the page currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1
 - 2.1.1
 - 2.1.1(A)
 - 2.1.1(A).1
 - 2.1.1(A).1.(a).
 - 2.1.1(A).1.(a).I
 - 2.1.1(A).1.(a).I.
 - 2.1.1(A).1.(a).I.(1).
- D. Check Pages - When a Tariff filing is made with the Commission, an updated check page accompanies the Tariff filing. The check page lists the pages contained in the Tariff with a cross-reference to the current revision number. When new pages are added, the check page is changed to reflect the revision.

1.3.2 Timing of Calls

The Subscriber's long distance usage charge is based on the actual usage of Carrier's network. Usage begins when the called party picks up the receiver. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in the NA-NXX V&H Coordinates Tape and Bell's NECA Tariff No. 4.

- 1.6.1 The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in the transmission occurring in the course of furnishing service, channels or other facilities and not caused by the negligence of the subscriber, commences on agreement to provide service and in no event exceeds an amount equivalent to the charge(s) the Carrier would assess to the subscriber for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in transmission occur. Additionally, it will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. 1.7 Temporary Suspension For Repairs

1.7.1 The Carrier shall have the right to make necessary repairs or changes in its facilities at any time and will have the right to suspend service temporarily for the purpose of making the necessary repairs or changes in its system. A maximum of one and one half percent (1.5%) may be added to any unpaid balance brought forward from the previous billing date to cover the cost of collection and carrying accounts in arrears. This method of late payment charge will be made in lieu of any other penalty. Customer's service may be terminated if service is not paid for by the 30th day past the billing due date.
